

FUEL CELL KIT TURNS ANY CAR INTO A HYBRID...

Get 121 MPG!

(Minimum 50% improvement guaranteed!)

\$1,000 Fuel Cell kit is installed in four hours and the buyer is guaranteed to get at least 50% more gas mileage.

Our project has trained and certified mechanics who are ready and able to install the kits anywhere in North America.

*We will train qualified mechanics in all areas of the U.S.A.
(Contact us if you are interested in this exciting opportunity.)*

Our training academy holds U.S.A. classes in the East Coast, West Coast, Great Lakes, and in the South, at which we train the trainers to go back home and train installers for their local area. We also have a correspondence course for those who just cannot get away (contact us.)

TUNING TECHNICIAN NEEDED: Earn \$200/Hour(+)

If you have the skills and set up to tune our Optimizer, you cannot beat the income. Our mini-computer teaches the on-board computer to not only accept our system, but it teaches the on-board to run it. Tuners need to really know the emissions control system in and out. Interested? Contact us!

COMING SOON...THE PLASMA FUEL GENERATOR

This modification kit will allow **ANY SUV** to get **100 miles per gallon** and will be introduced to the public on **March 5th**.
